

TWO MODES WITH JUST ONE SITE = ADAPTIVE.

A new web site  
for your agency that  
quickly delivers traveler  
info on desktops and  
mobile devices.

One design that looks good on mobile devices and on desktop PCs.

- Customize the site to your agency's look and feel.
- Your data and/or 3rd party data layered on a Google base map.
- Admin web interface to add or schedule alerts to appear on the website "ticker" alert.
- View user feedback and comments.

### Need more?

- Distribute your camera streams to desktop and mobile devices.
- Add pages for additional information/links etc.
- Customize features to your specific needs.
- Email/text alerts to subscribers.
- Auto-tweet advisories.
- Integrate with Google API for additional mapping functions.
